

IMPORTANT RESOLUTIONS.

The following resolutions were recently introduced into the U. S. House of Representatives by the Hon. Thomas Williams, Representative from the Twenty-third Congressional District of Pennsylvania. They have evidently been drawn with great care, and will be debated by Mr. Williams at an early day.—[Wash. Chronicle.]

Resolved, That the existing relation between the Union and the rebel States constitutes a condition of public war, with all the consequences attaching thereto under the law of nature and of nations.

Resolved, That the appeal of the rebel States from the jurisdiction of the ordinary tribunals established by the Constitution, to the arbitrament of the sword has not, however, withdrawn the case beyond the purview of the Constitution, which, in conferring the war power on the general Government, has made the law of war the rule of conduct in the prosecution and adjustment of the pending controversy.

Resolved, That while the rebel States are by that law and by the solemn recognition thereof in the proclamation made by the President of the United States on the 16th day of August, A. D. 1861, under and in pursuance of the authority conferred on him by the act of Congress of the 13th of July of the same year, interdicting all commercial intercourse between their citizens and those of the loyal States, in the attitude of belligerents, and outside of the Union as States, by construction of law as well as in point of fact, and have thereby either abdicated or forfeited their rights to membership therein, the jurisdiction and powers of the Government over their territory and citizens continue unimpaired, and the latter are still amenable to the law and the judicial tribunals of the United States for their treason and other crimes against the same.

Resolved, That so long as these States continue under the armed occupation of the forces of the United States employed in suppressing the rebellion against its authority, the local laws are necessarily subordinated, and the functions of the civil authorities so far suspended therein as to prevent the exercise of all the rights arising out of their relation to this Government, and to disable them from electing members of either branch of Congress, or electors for the choice of a President of the United States.

Resolved, That the occupation of these States by the armed forces of the United States, either under military commanders or provisional governors appointed by the Executive, resting for its lawfulness upon the condition of insurrection existing therein, is a purely military one, and ought to determine with the necessity which produced it.

Resolved, That as soon as the rebellion is suppressed in any of the revolting States by the reconquest and occupation thereof by the armies of the United States, and the same are so tranquillized as to furnish adequate assurance against the recurrence of disturbance therein, it will become the duty of the President to communicate the fact to Congress, in order that it may take the proper measures for the reorganization of the civil Governments and the re-establishment of the civil functionaries therein, and prescribe such terms as it may deem wise and proper and consistent with the public safety for the readmission of those districts as States of this Union.

Resolved, That it is the exclusive right of the legislative power of the Government to say upon what terms those territories shall be allowed to return to the Union; and that in the adjustment of the existing controversy, in the government ad interim of the reconquered territory, and in the arrangement of the terms of reorganization and readmission, it will be within their competency to punish the treason of individuals and provide indemnity for the expenses of the war, and security against any future outbreak of the like kind, by removing the causes and confiscating absolutely the property and estate of the guilty authors and abettors thereof.

NEW AND IMPROVED INVENTION OF
ARTIFICIAL CHEOPLASTIC BONE TEETH
WITHOUT METAL PLATE OR CLASPS.

DRS. SIGESMOND & HAYWARD,
280 Pennsylvania Avenue, between 12th and 13th
streets, Washington, D. C.

CALLS the attention of the public to the following advantages of his improved system:

1. The Teeth of their manufacture will never corrode nor change color by any acids, being three-fourths lighter than any other.
2. No teeth or roots need be extracted, as the artificial ones can be inserted over them.
3. The roots will be made inoffensive and never to ache.
4. No temporary teeth are needed, as permanent ones can be made immediately, thereby preserving the natural expression of the face, which under the old system is frequently disfigured.
5. This work has been fully tested over five years by many of the first chemists and physicians of this country.

Drs. S. & H. have also invented a white un-destructive metal filling, with which the most sensitive teeth can be filled without pain, and can build up a perfect sound tooth on any side roots, which will last through lifetime.
